Created the 10x Network, a platform that aimed to use Volumetric Virtual Reality technology to provide athletes a tool to virtually train with top professional soccer players.

- Built the start-up company from the ground up, including establishing business models, projecting financial statements, pitching decks, and selling the product to potential clients, angel investors, VCs, and advisors

CONTINUED

Blockchain Analyst

Analyzed market trends and provided innovative business strategies and recommendations for the implementation of blockchain technology.

- Researched the big Data Australia charity market by utilizing R coding language and leveraging machine learning matching techniques; clustered charities with similar data patterns in donation and government grants by using unsupervised methods
- Forecasted Little Phil's Coin intrinsic value using both DCF methods & Enterprise Value
- Evaluated the US's market charities and provided strategic recommendations for implementing company initiatives

Puerto Rico Government Employees Retirement System | *Hato Rey, Puerto Rico*

October 2011 – July 2017

Investment Officer

August 2016 – July 2017

Tracked and monitored the performance, use, and management of a \$1.2B investment portfolio that paid pension obligations of the Puerto Rican government. Performed accurate asset allocations, monitored regulatory compliances, and calculated return values.

- Analyzed various investment factors such as volatility, standard deviation, correlation coefficients, and sharp ratio to access the investment asset managers' performance
- Reviewed and validated the investment management invoice and reduced fees by consolidating with other public pension systems (TRS); improved the liquidity of the system by assessing and selling pools of loans
- Designed and executed a strategic plan to cover the shortfalls of the advanced system by providing tactical retirement plans for private-sector employees; discovered a new short-term investment opportunity that generated a new return of \$497,971

Investment & Financial Analyst

October 2011 – August 2016

Collected, analyzed, and composed accurate valuation and financial statement reports as well as presented insights from the investment portfolio to the department of the agency, Board of Directors, and the Investment Committee.

- Conducted in-depth cash flow, budget, and investment analyses to determine the liquidity and solvency of system
- Designed and established a pioneering financial model to forecast the average pension of all active employees
